The directors of the Western state railroad have decided to dismiss all in the provinces, against the chief their employes who refuse to return institutors of the movement. to work. Five leaders have already been discharged.

The food situation in Paris is causing some alarm. Prices of provisions at the central markets have advanced in some cases as much as 20 per cent. Parisians are laying in stocks of food to some extent, as they did before May 1, 1906, when a great labor strike was feared. The authorities are now organizing a boat service for the purpose of bringing provisions to the city.

The St. Lazare station has been closed. A few trains which started Stoner, living five miles from town, reached Poissy, some 16 miles away, arose from bed and went to the barn where they found 11 other trains and shot herself, the bullet passing stalled with the brakes fully set. Briand gave out a statement in which he repeated what he said previously about the movement being a purely insurrectional one and in no way professional. It was, he said, entirely the railway personnel, who will see, to deplorable excesses.

The statement of the premier admits that the government considers that the strikers have some just claims which it is ready to consider. It is understood that the government is willing to allow railway rates to be raised to cover an increase in wages, and this is what is keeping with a shotgun when his wife secured railway shares firm on the bourse, where there has as yet been no
